

Electronics - Cameras, Lights, & Videos

Information:

Used in the Diving, ROV, and Decommissioning industries, the T38 optimizes each video frame for contrast and color spectrum to make it as natural as possible to the human eye.

In real-time, even the smallest fragments of color and object shape can be extracted from the camera sensor.

Manufacturer Name :

LYYN

Equipment Name:

Video Enhancer T38™

Specifics of Equipment:

Supported video format: Analog PAL & NTSC (Time Base Correct, Int. Sync)
