Top Layer Capacity: 1000 lbs lifting capacity / 454 kg
Mid Layer Capacity: 1000 lbs lifting capacity / 454 kg
First Layer Capacity: 1200 lbs lifting capacity / 545 kg
Line Speed: 43 fpm / 13 m/min
Weight (shipping): 90 lbs / 41 kg

Optional Accessories :

Ask sales representative for further details and cost.

Per the Manufacturer:

- * Radial Piston Motor
Provides positive starting with precise load control.
- * Built to Last
All pinion shafts are splined for maximum power transmission and longevity. Ball and roller bearings reduce friction, increase efficiency.
- * Enclosed Construction
Keeps out dirt and dust and seals in oil and grease for complete lubrication of all moving parts.
- * Disengaging clutch
Allows the drum to free-wheel for easy unwinding of the wire rope. Not available with auto brakes.
