

AQUA-SAW

Information: Custom made, multi-configurable, ROV friendly saw operates at a low RPM but with the same high torque as other saws. The end result is a fast, efficient cut with less wear on the blade.

Manufacturer Name : Aqua-Tech Solutions

Equipment Name: Aqua-Saw

Specifics of Equipment:

- **20" Diamond Blade**
- **Multi-Configurable Handle**
- **Blade Guards are removable**

Hydraulic Motor Placement	1.97cu in (32 cc)
Maximum Hydraulic Pressure	4,000 PSI (275 bar)
Maximum Hydraulic Flow	19 GPM
Maximum RPM	2,400 RPM
Nominal Hydraulic Pressure	3,000 PSI
Nominal Flow	10 GPM
Nominal RPM	1,400 RPM
Blade securing nut torque	20 ft./lbs (1 1/8" socket)
Fluid	Mineral oil based hydraulic fluids to ISO/DIN

Optional Accessories :

N/A

Accompanying Accessories:

- Transportation Box
- Slings
- Blades
