

AquaTech Solutions

20 GPM Hydraulic Unit

Information:

Used primarily for the Diving industry, the units rugged design is built for ease of use in the field. The hydraulic unit powers various hydraulic tools.

Manufacturer Name :

Aqua-Tech Services

Equipment Name:

20 GPM Hydraulic Unit

Specifics of Equipment:

Dimensions: 3ft W x 5 ft L x 5ft x 2in H

Weight: 3000 lbs

Working Pressure: Hydraulic Power Unit @ 2000 PSI

Engine: Deutz D914L03 / Air cooled, 4 cylinder diesel engine rated at 58 hp gross @ 2300 rpm

Hydraulic Pump: Permco P30 Gear Pump

Per the Manufacturer:

- Integrated Control Panel
- Chalwyn Air Intake Shutdown
- Sentinel Engine Shutdown
- Galvanized Skid
- Engineered Certified Pulls on equipment to meet SEPCO compliance
- Rock Guard
- 4 Point lifting System
- Certified Slings

Optional Accessories :

N/A

Accompanying Accessories:

600 ft Hydraulic Twin Line

Structured Steel Skid

All welded and galvanized
